### **3 To receive questions or comments from the public**

3.1 A member of the public raised a concern regarding the parish council's comments to South Norfolk Council (SNC) on planning application 2018/1492, specifically in querying ownership of the land, as he felt his character had been tainted. He was also disappointed that CPC had not objected to the first application but had objected to this amended one. TW explained that the doubt was not a reflection on his character, but on the uncertainties around the application, which the parish council had felt it should raise before SNC made a decision. EPAG agreed that they were not willing to withdraw the comment, but recommended the resident contact SNC to discuss it with officers if they were not happy. He was reminded that there was opportunity to make his own points with the Planning Committee.

Another resident also commented on 2018/1492, stating that he was representing himself and other residents who had concerns about their rights of way on the land contained within the planning application.

3.2 A resident commented on application 2018/1447, advising that it would impact on her light and privacy. TW advised that her comments would be taken into account during the relevant agenda item.
