

Advance Works Notification – Colney Lane – Road Closure

Upcoming Works

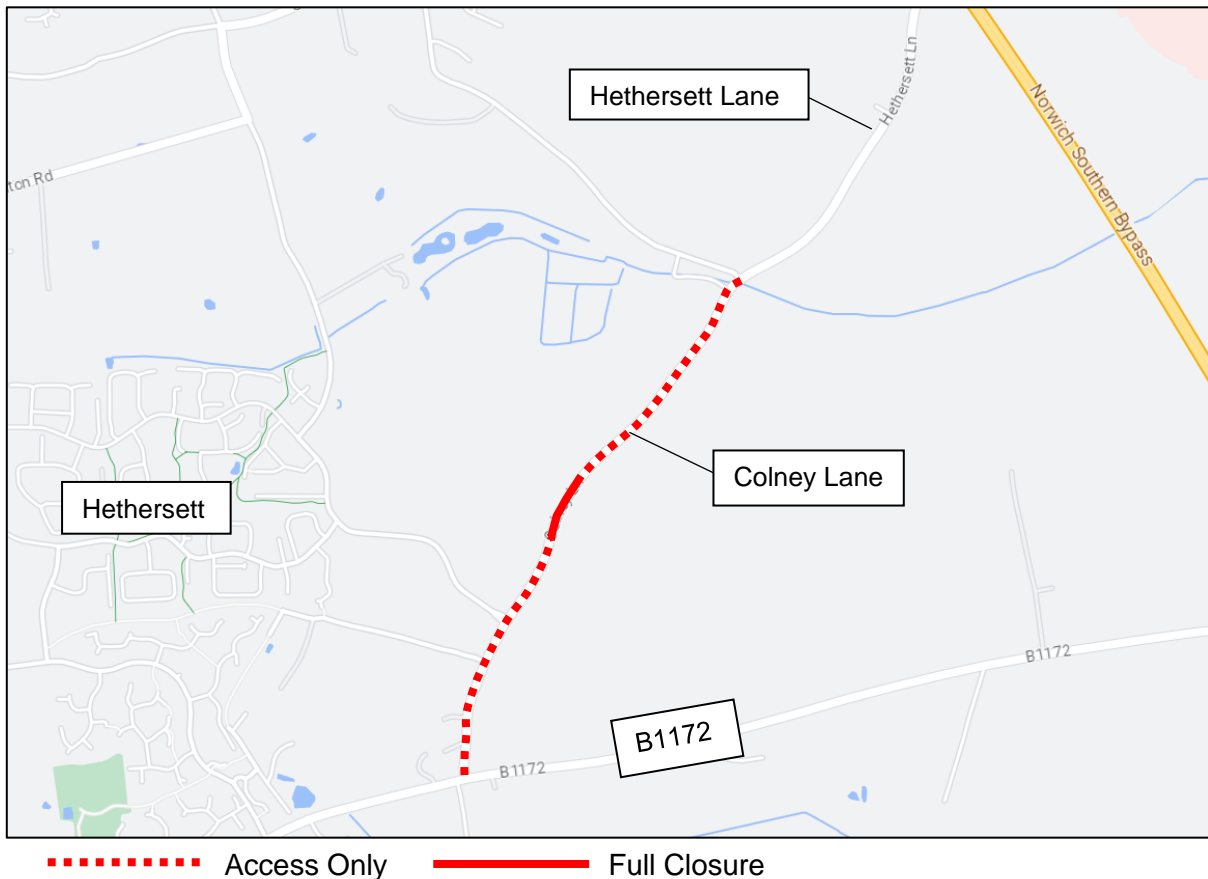

Road Closure

To prepare for construction of the Hornsea Three cable route we are required to identify the utilities services that our cable route crosses. As part of this, we will need to dig trial holes to identify the exact locations of these utilities.

In order to facilitate this, we will be **closing Colney Lane for one day on 9 May 2023 from 8.00am to 5.00pm.**

During this time, a diversion route shall be in place and most of Colney Lane will be **access only** with one section being subject to a full closure. You can see a map of the road restrictions below and road users arriving at Colney Lane should follow the diversion signage in place.

Map

What to expect

- You might see us working on site during the day.
- Some low-level noise from onsite machinery during working hours.

What we will do

- Keep all sites safe and secure, while keeping disruption to a minimum.
- Answer your questions via our community phoneline and mailbox.

Please note that all our works are subject to site and weather conditions and all the dates in this notification are subject to change.

Get in touch

We're committed to keeping you informed about our work. We want to be a good neighbour and try to minimise the impacts of our work on the community. If you'd like to get in touch, please email us at community@hornsea3.co.uk or call us on 0800 158 2354.

About us

The Ørsted vision is a world that runs entirely on green energy. Ørsted develops, constructs, and operates offshore and onshore wind farms, solar farms, energy storage facilities, renewable hydrogen and green fuels facilities, and bioenergy plants.

The Hornsea Three wind farm received development consent in December 2020. Hornsea Three, once complete, could provide clean power to over three million UK homes. It will make a significant contribution towards meeting the UK's net zero commitments and we're committed to working closely with stakeholders and local communities as we take the project forward.
