A47/A11 Thickthorn Junction

Advance notification of
out of hours work

Dear Customer,

We are writing to inform nearby residents of overnight works taking place on Thickthorn roundabout and A47 westbound carriageway between Monday 5 October and Thursday 8 October 2026. These works include tree works and vegetation clearance, gully cleaning, crash barrier removal and utility surveys.

When will the works take place?

Monday 5 October to Thursday 8 October 2026,
8pm to 5am.

Why is night working required?

Lane and road closures are required on and around the Thickthorn roundabout. These activities can only be carried out safely during overnight closures when traffic levels are lower.

What impact might residents notice?

Residents may notice increased noise from machinery, vehicles and vegetation clearance activities during the works.

How are we minimising disruption?

We understand that overnight work can be disruptive, and we're sorry for any inconvenience. We'll monitor noise throughout and take practical steps to reduce its impact, including switching off plant when it's not in use and positioning equipment as far from homes as practicable. Where possible, we'll use white-noise reversing alarms and battery-powered chainsaws, and review our methods to limit continuous noise.
